## **Parent/Teacher Communications**

### **KG-5<sup>th</sup> Grade Parents:**

1. Parents need to pay close attention to students' progress on a daily/weekly basis by checking their school work.
2. We have noticed students that excel were those whose parents are involved in their child's education.
3. Parent-Teacher conferences are established as a means for parents to interact with their child's teacher and address any known issues that will help the child succeed in their academics.
4. KG-2<sup>nd</sup> grade students take tests at the end of the school year. Parents are requested to enquire about the test and know more about it.
5. 3<sup>rd</sup> - 5<sup>th</sup> grade students take PSSA (Pennsylvania System of School Assessment) tests in core subjects like Language Arts, Math and Science. It is important parents save the results of PSSA scores as it will help them to keep track of their child's progress each year on core subjects.
6. Al-Huda School highly recommends parents to meet with staff to find ways to help their child score better.
7. Reading books regularly through local libraries will help to strengthen their vocabulary.
8. We recommend parents to seek additional coaching (Kumon Tutoring Center or other tuition center) if your child struggles in math and or reading.

### **6<sup>th</sup> - 8<sup>th</sup> Grade cyber Parents:**

1. Al-Huda School provides a Cyber model from 6th grade and up.
2. Students that are self-motivated, eager/enthusiastic to learn, willing to ask questions, can benefit by the Cyber model.
3. One of the parents or close family member needs to be computer literate and should be monitoring their child's progress through tools provided by the Cyber School along with Al-Huda School provided Cyber coach.
4. PSSA scores during these school years can really help parents to gauge their child's strengths and weaknesses.
5. We have noticed children who had better PSSA scores in lower grades start to score low once enrolled in cyber model. This basically is an indication for their parents that their child's attention is getting distracted or they are not concentrating enough.

### **9<sup>th</sup> - 12<sup>th</sup> Grade Cyber Parents:**

1. We recommend parents to sign up their child for the PSAT (Practice SAT) while in 10th grade by contacting their local school districts. Scores from the PSAT can guide parents to provide the needed additional help for their child.
2. Providing additional help while in 10th grade and using the summer after 10th grade for SAT preparation can help students score better in SAT which they can take while in 11th grade.
3. Usually parents can start applying for colleges beginning of 12th grade using GPA until 11th grade and SAT score.
